## The Interface

Whilst playing the game a bar is displayed along the bottom of the screen for displaying various stats.

WAVES are displayed at the far left of the bar. KILLS are displayed next beside a crossbones icon. Then HEALTH is displayed beside a heart icon. Furthest right is where the FEATHERS are displayed next to a feather icon. An indicator arrow appears above the FEATHERS when enough have been collected to upgrade shooting

## Playing the Game

Your objective is to survive as long as possible.

Enemies spawn every wave, increasing in strength, chasing you in an attempt to steal your golden egg. You start with 100% health and are dealt 10% damage every time a chicken hits you.

Use the D Pad to move in one of four directions.

Press A to shoot eggs to kill the enemies

When enemies die they leave behind their feathers. Collect the feathers and use them to upgrade your shooting

Press B to Upgrade shooting when an arrow appears above the feather icon in the interface. This indicates you have enough feathers to take your shooting to the next level.

Every now and then birdseed appears in the maze. Collect the birdseed to heal 10% of your wounds. Don't be greedy and eat the bird seed if you have no wounds to heal.

## Game Over

If your health reaches 0% you are dead, leaving behind your golden egg for the other chickens to steal. Press START to return to the menu screen.
